Software Student Training in Engineering Program (STEP) Intern 2023 - Bangalore or Hyderabad

Company overview:

Google is not a conventional company, and we don't intend to become one. True, we share attributes with the world's most successful organizations – a focus on innovation and smart business practices comes to mind – but even as we continue to grow, we're committed to retaining a small-company feel. At Google, we know that every employee has something important to say, and that every employee is integral to our success. We provide individually-tailored compensation packages that can comprise competitive salary, bonus, and equity components, along with the opportunity to earn further financial bonuses and rewards. Googlers thrive in small, focused teams and high-energy environments, believe in the ability of technology to change the world, and are as passionate about their lives as they are about their work. The role: Software Student Training in Engineering Program (STEP) Intern 2023 - Bangalore or Hyderabad

Additional Role Description:
Google aspires to be an organization that reflects the globally diverse audience that our search engine and tools serve. We believe that in addition to hiring the best talent, a diversity of perspectives, ideas and cultures leads to the creation of better products and services.

Google is invested in increasing the number of future computer scientists and software developers, particularly those who are historically underrepresented in the field. Many aspiring computer scientists could benefit from a program that bridges the gap between academic study and a professional internship. Google aims to inspire these students to continue in the field with such a program.

This program is committed to addressing diversity in our company and in the technology industry. Students who are a member of a group that is historically underrepresented in the technology industry are encouraged to apply.

This summer trainee program includes:

Software Project: A development project that you will work on with a team of Googlers and other STEP Interns.

Skills-Based Training: Enhance your coding skills, and gain exposure to new tools and programming languages.

Professional Development: Attend ongoing technical talks by senior Googlers. Additionally, learn how to enhance your resume, approach technical interviews, and improve your presentation skills.

Mentorship: Be matched with a Google Engineer, other than your manager, to guide you through your summer experience.

Fun: Engage in social activities, community building and networking. Build relationships with your peers.

Exposure: Gain a unique glimpse into applying your Computer Science studies in a professional environment.

Our STEP internship starts in May/June 2023 and is 10-12 weeks in duration.

Responsibilities:
- Specific responsibilities vary by project area.

Minimum qualifications:

- Currently in second year of study, enrolled in a Bachelor's (2025) /Dual (2026) degree program, majoring or intending to major in Computer Science or related technical field.
- Experience in one or more general purpose programming languages.

Preferred qualifications:

- Currently enrolled in a full time degree program and returning to the program after the completion of the internship.
- Excellent programming skills (C++, Java, Python).
- Ability to complete a full-time, 10-12 week internship between May and August 2023 (exact program dates will be provided at a later point in the process).
